## SPARKLING APENTA

(NATURAL APENTA CARBONATED) IN SPLITS ONLY.

A Refreshing and Pleasant Aperient for Morning Use.

### Mammoth Gospel Temperance Meeting

Chutes Park, Sunday at 2 P. M.

THE HON. A. C. HARPER will preside.

SPEAKERS—Hon. F. C. Finlayson, W. J. Murphy, Thos. C. Murphy and The Great Boy Baritone Singer, Francis Murphy, will sing the "Holy City," Accompanied by Kammermeyer's Band.

CONCERT—THE HOLY CITY. CHORUS of 50 Voices, led by Mr. Howard H. Stone. SACRED CONCERT—Kammermeyer's Band.

By officials of the Chicago, St. Paul and Milwaukee Railroad.

At the head of the party is President A. J. Erling, who is accompanied by M. R. Williams, local president of the railroad, and Foster Palmer, the young Chicago millionaire.

The party left here three days ago to look over cities in the lower south country, but it became known today that they are at the north end of Vancouver Island, accompanied by timber cruisers and guides.

These Charges Made Against Defense by Prosecution in McDonald-Guegan Murder Trial.

BY THE ASSOCIATED PRESS—P.M.] CHICAGO, Feb. 7.—A bitter denunciation of the defense was made today by the State's Attorney, who today began the concluding arguments in the trial of Mrs. Dora McDonald, charged with killing Webster Guegan.

He made charges of perjury, treachery, prejudice and bribery against the opposing witnesses and counsel.

There was no hint of the death penalty in Mr. Day's address. He asked the jury to find the woman guilty of murder, but gave it to understand that a penitentiary sentence will satisfy the prosecution.

AWAIT COURT'S DECISION. SAN FRANCISCO, Feb. 7.—Pending the action of the Supreme Court it is considered doubtful if the attorney for Schmitz will take any action.

Atty.-Gen. Webb has until February 15 to file his petition for rehearing of the Schmitz appeal, which was recently granted by the Appellate Court.

He is, it is said, rushing work on the document and in a day or two it will be given to the printer, so that it will be ready to be filed with the Supreme Court on Monday, February 15.

### FLASHES FROM WIRES.

Admiral Philibert, commanding the French naval forces in Moroccan waters, telegraphed that fourteen sailors were wounded, five of them seriously, as the result of an accident to the boiler of the cruiser Jeanne d'Arc off Tangier yesterday.

The State Treasury at Tiflis has suffered loss of one million gallons of petroleum through systematic robbery of tank cars on the trans-Caucasian railroads with the connivance of employees. The cars were lapped between way stations, and barrels filled with oil were carted away and sold at Telavethol.

January statement of the London Board of Trade shows decreases of \$20,000,000 in imports and \$2,000,000 in exports. The decrease in imports is principally in raw material and metal manufactures, while the decrease in exports is confined to manufactured goods.

Ten of twenty passengers were injured in a wreck on the Pennsylvania Railroad twenty miles south of Frankfort, N. Y., yesterday. No one was killed. The injured include: William C. Guggenheimer and wife, Buffalo; A. E. Neil, Buffalo, traffic manager of the Buffalo and Susquehanna Railroad; and Eugene Dekker, Mayor of North Tonawanda.

Ten coal miners employed in the pit of the Port Hood, N. E. mine, were killed by an explosion yesterday. There is ground for the belief that a charge of powder may have become ignited, causing the explosion.

The steel rail orders of the Pennsylvania Railroad Company amount to \$2,000,000 of which the United States Steel Corporation is awarded half. The price could not be learned.

At Grand Cascadia, N. B., a Quebec border town, the four members of the family of Andrew Campbell were burned to death by a fire which destroyed their home.

The Reichstag yesterday passed the Brussels Sugar convention. It adopted also a resolution to reduce the existing duty on sugar from 14 to 10 marks per metric hundred weight, beginning in April, 1908.

A band of outlaws recently waylaid two sergeants of the rural police near the village of Cheromphove, Siberia, and murdered them, chopping off the hands, feet and heads of their victims.

The official heads of all the steamship companies engaged in trans-Atlantic passenger traffic were put to an agreement in London last night, which ends the recent rate cutting, and by which the companies undertake to maintain certain rates for all classes of passengers, the figures of which will be made public shortly.

Following a petition filed by the United States District Attorney at New Orleans, charging adulteration in violation of the United States pure food law, 220 barrels of wine, shipped into Louisiana from Sandusky, O., were yesterday seized by a deputy marshal and will be held pending trial in the Federal courts.

Siegmund Friedberg, a private banker and owner of the financial newspaper, the Investor's Advisor, in Berlin, has disappeared. It is said he has liabilities amounting to \$400,000.

Three directors of the defunct Colorado State Bank, S. H. Freeman, Frank Eldridge and W. C. Chapman, have been arrested by the Sheriff of Archuleta county on the charge of receiving deposits at the branch bank at Pagosa Springs when they knew the bank was insolvent.

The Treasury Department yesterday purchased 100,000 ounces of silver for delivery at Denver at \$6.21 cents per fine ounce.

Linen to Be Cheaper. For more than 2000 years of historic record, man has annually watered from one-third to one-half of the actual flax crop. So writes Frank N. Bauckert in the Technical World Magazine for February. Worse than this, he has added to this waste the great expense of the primitive, slow hand-process of getting the fiber ready for the mill, and linen has therefore never been produced in quantities sufficient to meet the demand, when it should be in use as universally as cotton.

Flax is such a curiously complex plant that it was thought necessary to sacrifice some of its virtues in order to secure the benefit of others. No one was able to contrive a way to make use of all the properties of the most ancient of all the human race. In

**Newest Electric Signs.**  
The newest things in automatically operated electric signs is a big one advertising a preparation for removing spots from clothes. In this sign there appears outlined in electric lights a big bottle tipped partly over and under the mouth of the bottle thus tipped there appears at brief regular intervals a great irregular spot made with purple electric lights. When the big spot has thus appeared there are seen to fall upon it, apparently from the open mouth of the bottle, drops of the magical cleaning fluid thereby contained. This appearance of drops dropping from the bottle being produced of course by the turning on and off of single electric lights. As these magical drops fall upon the spot the spot disappears and in the place where the spot was is flashed in red lights the figures 25 Kidnoot the spot has gone! And if this isn't going some in the way of electric signs it is hard to imagine what would be.—[New York Sun.]

**The Politic Debtor.**  
The proprietor of a hotel, hearing of the whereabouts of a guest who had decamped from his establishment without paying his bill, sent him a note: "Dear Sir: Will you send me amount of your bill and oblige?" To which the delinquent replied: "The amount is \$41.50. Yours respectfully."—[Philadelphia Inquirer.]

**MODERN METHODS SUCCEED**  
There are two remedies of various kinds were used in treating consumptives and nine-tenths of the patients died. Today little medicine is prescribed for the cure. Physicians have learned that the best way to combat most lung troubles is by the indirect method of stimulating the body's natural power of fighting and destroying germs. Consumption is much easier to prevent than it is to cure. A cold, if neglected, leads to lung trouble. One is able to successfully resist the germs of the dread disease. Upon the first indication of a cold every effort should be made to check it at once.

Virgin Oil of the Pine (pure) will break up a cold in 24 hours and cure any cough that is curable. Possessing all the healing and medicinal properties of the pine, it tends to strengthen the lungs and bronchial tubes, increasing their natural power of resistance to attack.

It is put up only in 4-ounce vials, each vial securely sealed in a round wooden case, with engraving showing plainly the name—Virgin Oil of the Pine compound pure, prepared only by Leach Chemical Co., Cincinnati, Ohio. Avoid imitations.

## A GOOD NAME

EVERY one desires to establish for himself a good name, but it takes time to win the confidence of your fellow men. Truth and perseverance are the alternate rungs on the ladder of success, and he who reaches the top must make no false step.

Careful selection of the drugs, intelligent and skillful compounding, the entire absence of opium, chloroform, or any other harmful ingredient, and the absolute purity of every article that goes into its composition, has built up and sustained its good name.

There are hundreds of cough medicines with all sorts of names, each claiming to be the best, but the test of time will prove whether or not they have established the right to be called the best.

These are the things you should remember, and the next time you want a cough medicine, it is worth while to see that you get Chamberlain's and secure the virtues which a good name implies.

Every dealer who sells a bottle of Chamberlain's Cough Remedy guarantees it to give satisfaction or he will refund the money.

**SURPRISING.**  
So George Swain threw himself into the work of the race with whole-hearted energy and won pretty handsomely at the end. A woman near the press box let out a scream which sent the City Marshal of Pasadena scurrying about looking for the trouble. He had it on George Swain. And a man down by the paddock fence pointed. He had it across the board. But the stable connections smiled.

**Fighting Ouster Proceedings  
from Vernon.**

**Promise Lively Times When  
Trial Comes.**

Vernon expectantly awaited action by Judge James in the Superior Court yesterday upon the suit brought by Robert Broome against its Board of Trustees, and filed in the Superior Court on January 29 last. This suit was for the purpose of ousting the members of the board and compelling them to each pay \$500 forfeit as provided by law when public officials ar-

The plaintiff made charges of neglect of duty and extravagance and failure to provide school and other facilities, to keep the roads in repair and further that they continued themselves in office by failing to call an election also that they neglected to fill a vacancy caused by the ousting of Trustee Burge nearly a year ago.

But of the four Trustees of Vernon three filed a joint demurrer through the City Attorney of the little town, on the ground that the plaintiff has no legal capacity to sue, that the complaint is defective, that the offense charged are barred by the statute of limitations, and that the complaint fails to charge corruption in connection with the charge of neglect of duties of the defendants.

**THREE ARE "SOLID."**

The three trustees who will stand together in opposing the action of Broome, are John B. Leonis, James J. Eudene, and William M. Stevens. The

The "Solid Three" of the Trustee deny every allegation made by the plaintiff and if the case ever comes to trial promise that there will be an exceedingly lively time. It is under these terms that the "Solid Three" plan

that one reason why the roads in Vernon are not in better shape is that the President Holland has refused to sign warrants for the work. Just why Mr. Holland, who is a defendant and is threatened with being ousted from office along with the others, should fail to do so is not explained, but the "pass the buck."

Meanwhile the little city is a hotbed of politics and the partisans of the

Trustees are insistent that the board has done all that it could do. They "point with pride" to the treasury of the city, with nearly \$3000 in it. They show a fine schoolhouse in the town; the house is fine. They assert that Broome, the plaintiff, is "sore" because the city sanitary inspector made him clean up his back yard so that it "don't smell so badly now."

**NOT DOING WARD POLITICS.**

As for the alleged neglect by the

Trustees to fill the vacancy caused by the retirement of Trustee Burge, have the "Solid Three" deny that they have failed in their duty, but that it is not incumbent upon them to "do politics" in that particular ward and nobody has come forward looking for the job.

As for the charge that the Trustees paid out good money to Attorney John Carrigan as an extra fee while

the City Attorney was under contract to attend to all of Vernon's municipal work, the friends of the Trustee assert that this was done because the City Attorney was in the East and the prosecution of Mrs. Day for dumping refuse in the street had to be tried. Mrs. Day is now suing the Trustees for \$10,000 damages for false arrest.

But the "Solid Three" do not believe that they will ever have to answer to

charges made in the complaint of  
Broome in court; they are confident  
that Judge James will uphold the  
murders filed yesterday and thus knock  
out the complaint.

But on the other hand, there is a  
large element among the citizens of  
Vernon who are dissatisfied with the  
progress the Trustees are making in  
boosting the city of Vernon and com-  
plain that while they leave the "streets  
wide open" the town is also "wide

**CARS MENACE LIFE.**

**Baro-Bound They Go Speeding and Pedestrians Have Narrow Escapes on Street.**

Residents of Moneta avenue, south of Jefferson street, have become thor-

oughly aroused to the danger of traffic on the Moneta-avenue line. "Free" cars, which carry no passengers, and whose crews are anxious to reach the barns as soon as possible, fly along the thoroughfare at great speed, endangering many persons.

Two almost lost their lives yesterday evening while crossing the street. A Pico Heights car, south-bound, barely missed A. H. Smith of No. 334 We-

Fourth-ninth street, and at the Fifth street crossing another Fifth street car, bound for the barn, narrowly missed running down a little girl.

These wild cars are declared to be a menace, and property holders are considering a plan whereby they can be regulated. The railroad company will be asked to give the subject attention and if this fails of its purpose the authorities will be requested to take hold.

Similar complaints are heard from the vicinity of the car barns in the northern part of the city.

### **SUSPECTS ARE HELD.**

Robert Lee Gates and Robert Bell were arrested last night and held on suspicion. It is asserted by detectives that they are wanted in Stockton on the charge of burglary. They are both addicted to the use of morphine. It is stated, and are alleged to have com-

ex-mitted several burglaries in order to  
buy drugs.

[BY THE ASSOCIATED PRESS-P.M.]

CHICAGO, Feb. 1.—Wheat was strong  
day, with the exception of slight weakness  
at the opening due to enormous shipments  
from Argentina. Reports for the week  
from that country being 250,000 bushels in

cess of last week's record-breaking shipment. A strong market was reported from Winnipeg and it was noted that the Canadian government had bought nearly 1,000,000 bushels of American wheat for seeding purposes, very early in the season.

The market closed strong. May opened at 67 1/2¢, changed to 67 1/4¢, later at 67 3/4¢, advanced one cent to 68 1/4¢.

Corn was strong all day. May closed 61 1/4¢.

Barley was firm. May closed at 64¢.

Provisions were rather weak because of the retail receipts of live hogs at the stock yards. Pork was 10¢ lower. Lard was 1¢ lower. The close. May pork was off 7¢, lard went down 7 1/2¢ cents, and ribs were 5¢ lower.
